NEED A WEBSITE?

On behalf of the entire team here at Intracope , I want to thank you for the opportunity to earn your business as your provider of web design services. There are hundreds of companies offering these services that you could have chosen, and yet here we are, with an opportunity to earn your business. I cannot understate how much we appreciate being able to put this proposal in front of you today.

At Intracope we believe in standing out. We stand out as a web design company by insisting on pushing the boundaries of website performance, and by delivering work of the highest quality on-time and on-budget.

Our mission to stand out doesn't stop with our internal goals. After all, our clients' satisfaction is what keeps our doors open, and helping you stand out is the best way to make sure you're completely satisfied. We're committed to helping your brand stand out in a crowded market, against a sea of hungry competitors.

Our Development Process

We take a structured approach to web design. Our development process was created to ensure every project is delivered on-time and on-budget. Once your web design project kicks off, here's what to expect:
• Initial Planning
• Copy & Graphics
• Development
• Testing
• Deployment

Initial Planning

The first order of business is to sit down with your team and create a detailed set of design and technical specifications. These specifications serve as a roadmap for the rest of the web design process. And will guide us on selecting a template to work with.

Copy & Graphics

Once we've agreed on a final template design our team will proceed with development, kicking off two phases in unison. The first involves creating collecting your site's copy and graphics.

Development

At the same time, we'll kick off the technical side of the web design process. This will include working on the site as per your requirements.

Testing

Once our designers have finished their work, our Quality Assurance team will get to work testing your site's performance and reliability. We'll use various tools to ensure that it works reliably on all web browsers and mobile devices.
Testing

Once we're sure that your site is ready to be released to the public, we'll deploy it on your public domain. Then, we'll shift into a monthly support process that will continue for 12 months.

Web Design Service

Design Fee
The total cost of the wed design service on a modern one page responsive website is P2500 though it is negotiable based on client requirements. A 50% deposit is required before work begins, with the balance being paid with 3 days of the final website files being delivered to the customer.

TURN AROUND TIME
Two Week is the turn around time from initial contact with the client to the delivery of the completed website files being delivered to the customer. We pride ourselves on fast work.

SITE MAINTENANCE
Once we have completed the initial web design service, we will be responsible for maintaining the site for 12 months from the date of delivery. This maintenance doesn't include redesign, but changes that don't total more than 1 hour per month.

CONSULTING
We are available to advise our clients on which web hosting and domain services would be ideal for their particular needs.
